

DMJ

INTERIM SOLUTIONS

The demand for interim support has risen by 46% since January 2024 as legal and governance teams contend with increased workflow and restrictions on additional headcount.

DMJ's interim solution provides immediate access to a bench of professional interim legal and governance professionals that are available at short notice to support specific projects, long term absences, or simply relieve some of the pressure during a busy period.

Depending on your requirements, the onboarding options include payroll, umbrella company or direct payment to the interim consultant.

We track the interim market very closely to ensure we can respond immediately to urgent client requests.

BENEFITS OF AN INTERIM SOLUTION

Hiring someone on an interim basis offers a flexible solution to your shorter term requirements. Typically this covers an absence within the team, a temporary increase in workload, or the need to bring in a specialist skill set for a specific project.

The team at DMJ tracks the market daily to ensure we have oversight of all the interim talent and their availability to start a new contract. Whatever your requirement, the team at DMJ is on hand to advise and support.

If you have an interim requirement and would like to discuss in more detail, please contact us at info@dmjrecruitment.com or call us on 020 3058 1444.

'We engaged an interim governance consultant to help us with a complex restructuring project. Their impact was immediate and we quickly gained full confidence in their ability to deliver the support we needed.'

CFO, AIM listed company

'The team needed additional support on a FTC basis to cover two maternity leavers. The standard of candidates provided was excellent and the recruitment process took just over a week from start to finish'

General Counsel & Company Secretary, Private Limited Company

'Having mid-level interim support helped us during our busy Year End. It's good to know there are some excellent career interims actively available in the market.'
